

 **GEBERIT**

# Decorative Traps

## Attractive on the outside, innovative inside

Geberit's range of washbasin traps, bath fillers and popups strikes the perfect balance between form and function, combining outstanding performance with striking aesthetic qualities that enhance the look of any bathroom.

- Stylish design with a chrome finish. Its conic design adds the finishing touch to all wall-hung washbasins.
- The in-built hydraulic element directs water in a constant and direct stream towards the waste pipe creating a self cleaning effect.
- Easy installation. The waste pipe fits on to the trap with an audible "click" and can be cut to size. As we use plastic, corrosion is not an issue and you get years of trouble free performance.
- 1 1/4" BSP waste connection and 32mm outlet.  
Comes with 32mm – 1 1/4" adaptor.
